Scolarship

Dear Sir/Madam,

I am student at Faculty of Technical Science, Novi Sad. I am writting this to apply for scholarship University of Ulm gives.

Since i was young i was occupied with programming and computing in general. When i was in elementary school i have started learning programming in School for Talents in my city. At first it was a little bit confusing because that was the first time i met with programming, but also i was fascinated how little piece of code can do phenomenal things. Shortly after i did successfully my first homework, my interest in programming increased rapidly. That was the moment i decided what i want to whole my life.

After elementary school, i went to Technical School of Electrical Engineering. Thanks to my head teacher i fully understood how programming works, and she really showed me beauty of programming. Every class with her was wonderful, because she was so enthusiastic and we had to solve different kind of puzzles, which is my favorite part of programming. It was really pleasure and i was excited every time we worked together.

I have started studying at Faculty of Technical Science in 2013. All my previous work was just a basics compared to what i learned at college. My favorite programming languages are Java and Python. Professors here are highly skilled and all of them are open for any kind of help, which is reason more to continue doing this.

Programming is my passion and i really enjoy while i'm doing this. Your scholarship will be great motivation for me to continue learning and working hard. And also it would show that hard work and dedication will not be unnoticed.

Yours sincerely,

Aleksandar Stanković

Date of birth 3 Oct 1994 | Nationality Serbian

EDUCATION AND TRAINING

01/10/2013–Present | **Professional Engineer of Electrical and Computing Engineering**

Faculty of Technical Science, Novi Sad (Serbia)

General:
- Java
- Android
- Python
- HTML, CSS, JS, XML, C#

Occupational:
- Git, SVN

Computer technician

Technical School of Electrical Engineering, Pančevo

General:
- Programming
- Object-oriented programming
- Electronics
- Physics
- Math

Occupational:-Robotics

PERSONAL SKILLS

Mother tongue(s) | Serbian

Other language(s)

UNDERSTANDING		SPEAKING		WRITING
Listening	Reading	Spoken interaction	Spoken production	
B2	B2	B2	B2	C1

English

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
Common European Framework of Reference for Languages

Communication skills | Great communication and presentation skills gained through "Ernst & Young" presentation workshops.

Organisational / managerial skills | Good organisational skills gained through many projects in high-school.Good leadership skills gained through high-school competitions. My team were on national competition in entrepreneurship, we were 5th as the only one Technical School between all Economic Schools.

ADDITIONAL INFORMATION

Certifications	"Certificateof recognition" by "Ernst & Young" company. That is to certify that the student has successfully completed Presentation Skills Workshop.
Certifications	"Entrepreneurship certificate" by "Belgrade Banking Academy" for youth entrepreneurship.
Memberships	Volunteer at BEST (Boardof European Students of Technology)
